Day 1 (MON) — Tech Foundation & Automation Setup

Morning — Team Lead (1 hr)

- [] 9:00 AM — 15-min team standup (Google Meet / in-person)
 - Abhishek sets the week's goal
 - Sumit shares client pipeline
 - Gopal shares content calendar
- [] Assign each person their daily checklist from this plan

Tech — Website Hardening (3 hrs)

- [] **Fix Core Web Vitals:**
 - Run Lighthouse on homepage, SEO page, WebDesign page
 - Fix any CLS (layout shift), LCP (largest content), FID issues
 - Enable preload for hero image in index.html
 - Add loading="lazy" on all below-fold images (already done — verify)
- [] **Deploy latest build** (SEO fixes from previous session):

```
npm run build
git add -A && git commit -m "SEO + performance fixes"
git push
```

- [] **Check Vercel/Netlify deploy logs** — no build errors

Revenue Automation Setup (2 hrs)

- [] **WhatsApp Business API flow:**
 - Set up auto-reply: "Thanks for reaching out! Type 1 for Website, 2 for SEO, 3 for Google Ads"
 - Create quick replies for: pricing, portfolio, process
- [] **Set up contact form → WhatsApp notification** (already done via api.ts — verify working)
- [] **Create lead tracking spreadsheet** (Google Sheets):
 - Columns: Date | Name | Phone | Service | Source | Status | Assigned To
 - Share with Sumit & Gopal

Evening — Review (30 min)

- [] Check Sumit's call log — how many leads contacted?
- [] Check Gopal's content — how many posts created?
- [] Update daily tracker sheet

Day 2 (TUE) — Website & Client Delivery

Morning (30 min)

- [] Team standup — review Day 1 progress, set Day 2 targets

Tech — Complete Client Deliverables (4 hrs)

- [] **Priority 1:** Complete any pending client website work
 - 1 new page or section per client
 - Push to staging: `staging.websbond.com/clientname`
 - Send preview link to Sumit → Sumit sends to client
- [] **Priority 2:** Fix SEO issues on site:
 - Add 3 new case studies to `src/pages/CaseStudies.tsx`
 - Add redirects for `/services → /website-design-service-in-delhi`
 - Verify sitemap.xml is correct

Systems Building (1 hr)

- ☐ Create a **client onboarding template**:
 - Welcome email template
 - Requirements checklist
 - Timeline template (Notion/Doc)
- ☐ Create a **project handoff checklist** (when project is done → what to deliver)

Evening Review (30 min)

- ☐ Check revenue pipeline: how many proposals sent? how many closed?
 - ☐ Review Gopal's social analytics screenshots
 - ☐ Plan next day's priorities with Sumit
-

Day 3 (WED) — Growth Systems & Quality Control

Morning (30 min)

- ☐ Standup + review previous day metrics

Tech — SEO Content Publishing (2 hrs)

- ☐ Write & publish **1 major blog** on websbond.com:
 - Topic: *"Website Design Cost in Delhi NCR — 2025 Complete Guide"*
 - Include: pricing table, comparison, FAQ, CTA to contact form
 - Optimize with proper headings, meta, internal links
- ☐ Update `blogPosts.ts` with new entry
- ☐ Submit new blog URL to Google Search Console

Quality Control (2 hrs)

- ☐ **Audit Sumit's client calls** last 3 days:
 - Listen to 1 recorded call (if recorded)
 - Check: Is he pitching correctly? Following the script?
 - Give feedback in 5 min
- ☐ **Audit Gopal's social posts** last 2 days:
 - Check: Brand voice, visual quality, CTA
 - Give feedback: what to improve
- ☐ **Review all open client projects**:
 - Which are on track? Which need help?
 - Re-assign resources if needed

Evening (30 min)

- ☐ Review day's blog analytics
 - ☐ Update team tracker
 - ☐ Send 2 min voice note to team: motivation + tomorrow's plan
-

Day 4 (THU) — Revenue Push

Morning (30 min)

- ☐ Standup — "Today is revenue day. Every call = close. Every post = lead."

Tech — Demo Day (3 hrs)

- ☐ **Build 2 quick demo websites** for prospects:
 - Use a template-based approach for speed
 - Domain: `demo.websbond.com/clientname`
 - Timebox: 1.5 hrs per demo
 - Goal: Sumit shows these to prospects TODAY
- ☐ Create a **"Website Preview" page**:
 - Password-protected page template for client approvals
 - Saves Sumit's time sending screenshots back & forth

Revenue Tracking (1 hr)

- ☐ **Set up invoice system**:
 - Create GST invoice template (if registered)
 - Or simple invoice: websbond logo + client name + amount + UPI ID
- ☐ **Set up payment links**:
 - UPI ID: `websbond@upi` (create if not exists)
 - Razorpay/Paytm business account (if needed)
 - Test payment flow on `/paypal` page

Team Strategy (1 hr)

- ☐ Sit with Sumit for 30 min: **plan top 10 hot leads**
 - Who to call, what to say, what's the offer
 - Offer: "Milega 20% discount aaj hi book kame par" (scarcity)
- ☐ Sit with Gopal for 30 min: **plan viral push**
 - Pick 1 reel format that worked → make 3 variations
 - Schedule posts for next 3 days

Evening (30 min)

- ☐ Revenue check: How many leads converted today?
 - ☐ If less than 2 conversions → call strategy pivot session with Sumit
-

Day 5 (FRI) — Client Delivery Sprint

Morning (30 min)

- ☐ Standup — focus: deliver 2 client projects by end of day

Tech — Delivery Sprint (4 hrs)

- ☐ **Complete 1 full client website** (if pending)
- ☐ **Optimize 1 existing client site for SEO:**
 - Add Google Analytics + GSC
 - Add meta tags, schema
 - Submit to Google
- ☐ **Take screenshots** of completed work → share with Gopal for portfolio

Website Improvements (2 hrs)

- ☐ Add "Case Study" PDF download links on case study pages
- ☐ Add WhatsApp click-to-chat on every service page (verify it's already there)
- ☐ Test contact form → leads reaching WhatsApp + email

Evening Review (30 min)

- ☐ Count this week's output:
 - Projects started: ____
 - Projects delivered: ____
 - Revenue collected: ____
 - Leads in pipeline: ____
 - ☐ Share week's progress with team (WhatsApp group)
-
